RESEARCH INTEREST

I am a first-year Ph.D. student at KAIST AI, advised by Prof. Hyunjung (Kate) Shim. Before joining KAIST, I conducted research with Prof. Ran at the CAVH Research Group at University of Wisconsin–Madison and with Prof. U Kang at the Data Mining Lab at Seoul National University. I later worked with Prof. Insik Shin in the Agentic AI Group at FLUIZ AI and Dr. Jinhan Lee in the Autonomous Driving Group at NAVER LABS. My research interests include **Multimodal Learning**, **Vision-Language Models**, and **Agentic AI**.

EDUCATION

Kim Jaechul Graduate School of Artificial Intelligence, KAIST — Jan. 2026 – Present
PhD in Artificial Intelligence
Advisor: Prof. Hyunjung (Kate) Shim

Kim Jaechul Graduate School of Artificial Intelligence, KAIST — Jan. 2024 – Dec. 2025
Master of Science (MS) in Artificial Intelligence
Advisor: Prof. Hyunjung (Kate) Shim

University of Wisconsin-Madison — Jan. 2017 – Dec. 2022
Bachelor of Science (BS) in Computer Science — GPA: 3.9/4.0
Bachelor of Science (BS) in Data Science — **Dean's List Recipient**

RESEARCH PUBLICATION

1. **Hojun Choi**, Seulbin Hwang, Dae Jung Kim, Kisung Kim, Hyunjung Shim†, and Jinhan Lee†, "*Open-Vocabulary BEV Segmentation with 3D-Aware Geometric Constraints*"
European Conference on Computer Vision (ECCV), 2026

2. **Hojun Choi**, Youngsun Lim, Jaeyo Shin, and Hyunjung Shim, "*CoT-PL: Chain-of-Thought Pseudo-Labeling for Open-Vocabulary Object Detection*"
2nd Workshop on Multimodal Spatial Intelligence @ CVPR (CVPRW), 2026
European Conference on Computer Vision (ECCV), 2026

3. Wonjeong Ryu, Seungjun Yu, Seokha Moon, **Hojun Choi**, Junsung Park, Jinkyu Kim, and Hyunjung Shim, "*SUPER-AD: Semantic Uncertainty-aware Planning for End-to-End Robust Autonomous Driving*"
Preprint, 2025

4. Youngsun Lim*, **Hojun Choi***, and Hyunjung Shim, "*Evaluating Image Hallucination in Text-to-Image Generation with Question-Answering*" (*Equal contribution)
[Oral Presentation] AAAI Conference on Artificial Intelligence (AAAI), 2025

5. **Hojun Choi**, Junsuk Choe, and Hyunjung Shim, "*Sampling Bag of Views for Open-Vocabulary Object Detection*"
Preprint, 2024

6. Sunjae Lee, Junyoung Choi, Jungjae Lee, Munim Hasan Wasi, **Hojun Choi**, Steven Y. Ko, Sangeun Oh†, and Insik Shin†, "*MobileGPT: Augmenting LLM with Human-like App Memory for Mobile Task Automation*"
ACM International Conference on Mobile Computing and Networking (MobiCom), 2024

7. Seungcheol Park, **Hojun Choi**, and U Kang, "*Accurate Retraining-free Pruning for Pre-trained Encoder-based Language Models*"
International Conference on Learning Representations (ICLR), 2024

ACADEMIC EXPERIENCE

Research Intern — May 2025 – Nov. 2025
NAVER LABS Corp. — *Seongnam, South Korea*

- Conducted research with Dr. Jinhan Lee on end-to-end planning for autonomous driving.
- Developed VLM-based approaches for open-world perception and explored 3D Gaussian Splatting for efficient real-time processing.
- Independently implemented models, designed experiments, and conducted evaluations for the projects.
- Authored a first-author paper accepted to ECCV 2026.

Research Intern — Sep. 2023 – Feb. 2024
FLUIZ AI — *Seoul, South Korea*

- Conducted research under Prof. Insik Shin in the Agentic AI Group of the CPS Lab at KAIST.
- Developed memory-augmented LLM agents for mobile task automation using structured app memory.
- Co-authored a paper published at ACM MobiCom 2024.

Research Intern — Jan. 2023 – Jul. 2023
Data Mining Lab at Seoul National University — *Seoul, South Korea*

- Conducted research with Prof. U Kang in the Model Compression Group of the Data Mining Lab.
- Developed an offline, retraining-free pruning method for pretrained encoder-based language models.
- Co-authored a paper published at ICLR 2024.

Undergraduate Research Intern — Sep. 2022 – Dec. 2022
CAVH Research Group at University of Wisconsin-Madison — *Wisconsin, USA*

- Conducted research with Prof. Ran on end-to-end driving perception using a DETR-style architecture.
- Built a custom CARLA environment modeling a university campus to evaluate delivery-robot driving models.

PROFESSIONAL SERVICES

- **Conference Reviewer**: CVPR [2026, 2024], ECCV 2026, ICLR 2026, AAAI 2026, NeurIPS 2025
- **Journal Reviewer**: TPAMI 2025

- **Teaching Assistant**: Computational Image Generation and Manipulation. — 2026
- **Research Assistant**: KT–AI Convergence Education Program. — 2023
- **Academic Mentor**: Introduction to Human Computer Interactions (CS570). — Fall 2022
- **Academic Mentor**: Introduction to Artificial Intelligence (CS540). — Fall 2022
- **Academic Mentor**: Elementary Matrix and Linear Algebra (CS340). — Spring 2022
- **Academic Mentor**: Introduction to Computer Systems (CS354). — Spring 2022
- **Academic Mentor**: Programming III (CS400). — Spring 2022
- **Academic Mentor**: Elementary Matrix and Linear Algebra (CS340). — Fall 2021
- **Academic Mentor**: Introduction to Computer Engineering (CS252). — Fall 2021

SKILLS

- **Languages**: Korean, English
- **Programming**: Python, C/C++/Csharp, LaTeX, MATLAB, Mathematica, JavaScript
- **Machine Learning**: PyTorch, TensorFlow, scikit-learn
- **Tools**: SQL, Shell, Git, Slurm
- **Other**: SPSS, Linux (openSUSE, Ubuntu), Mac OS, Windows OS

AWARDS

- **Best Poster Award**, Image Processing and Image Understanding (IPIU), 2026
- **Oral Presentation**, Image Processing and Image Understanding (IPIU), 2025
- **Top 10%**, Autonomous Sensor Antenna Prediction Competition, LG Research AI, 2022
- **Honorable Mention**, UPL Hatathon, 2022
- **Dean's List Recipient**, University of Wisconsin-Madison, Every Semester Attended
